Contact: shrinathcloud.com

PROJECTS

Salesforce CPQ Implementation (10/2019 - 06/2020)
- Configured Salesforce CPQ for an Organisation from Scratch.
- Combined both Native CPQ automation and custom Apex automation to achieve the Client requirements.

Salesforce Custom Integration with Apptopia (10/2018 - 04/2019)
- Implemented custom integration with Rest APIs to Sync data between Salesforce and Apptopia database.

Salesforce Custom Integration with Chargify (04/2019 - 12/2019)
- Implemented Custom Integration using Rest APIs to Sync Sales Process between Salesforce and Chargify.
- Chargify is a Subscription dedicated CRM.

Salesforce Custom Integration with Zendesk (08/2018 - 10/2018)
- Synced data between Zendesk and Salesforce using Custom Rest APIs and Apex code.

Salesforce Custom Integration with Slack Bot (06/2019 - 07/2019)
- Connected Slack bot with Salesforce using Rest APIs built into Apex Trigger Code and Send a message into Slack on Specific Scenarios.

JSON TO APEX ⧉
- Created a Python-Flask tool to convert hardcoded JSON into APEX JSON Gen Class object. Hosting on Heroku.
- Created VS code extension for the same. Created API with Python and deployed on Herko and used it inside the VS code Extension's Node JS code.
